

LED lamp

C35, E14, 2200-2700K, 280°, 3.5W

Warm-white does not always need to be associated with high costs. The lamp provides the same light colour as a conventional lamp, with the advantage that it consumes less energy. When dimmed, the colour of light changes from 2700K to 2200K, which is the same effect as when dimming a filament lamp.
