

## SLV Play LED lamp

### E27, G110, controllable RGBW

It's true that there are some things more exciting than a lamp. But, as it often is, the difference is in the details. To be precise, the difference lies in four letters: RGBW – in this case, this means: 16 million colours. The PLAY E27 RGBW LED lamp from SLV creates a unique lighting experience with its LED technology which begins at start-up, continues with the flexible usage options and runs through the entire lifetime of the product like a red thread. Or is the red thread actually green? Or yellow? You can decide. You want to know a bit more? Gladly. The dimmable SLV PLAY E27 RGBW LED lamp corresponds to socket E27 and gives its users a service life of 25,000 hours. With this model, the light is available within less than 0.5 seconds. For this reason and because of the high degree of user convenience, this lamp is extremely popular in both residential and commercial areas. This model is also characterised by having a high luminous intensity of 1,550 Lumen, a weighted energy consumption of 21 Watts and an adjustable colour temperature of between 2,200 and 6,500 Kelvin, plus 16 million colours (RGBW). On the basis of this LED lamp, the user can choose between operation via a separately available remote control, by app or using a light switch in order to use the wide variety of application scenarios. It is also possible to control the hardware using the Amazon Alexa voice assistant or Google Home. Because of the wide range of advantages that this lamp has and with regards to energy-efficient use, this model has become the standard in many private and business areas. A glance at the technical data is just as impressive as the range of usage areas in the different rooms in this case. Thanks to the uncomplicated start-up, the user benefits from a high comfort factor and impressive handling. A hub, a bridge or a gateway are not required. A WLAN signal is required for full usability. You can look forward to your product with the customary SLV quality!

## TECHNICAL DATA

Item no.	1002520
Socket	E27
Lamp type	LED E27
IP Code	IP 20
Dimmable	Yes
Dimming technology	Dim-to-Warm
Nominal voltage	220-240V ~50/60Hz V
Weighted energy consumption	21 kWh/1000h
Electrical power factor	0.6
Wattage	21 W
Starting time	1 s
Start time	0.5 s
Minimum ambient temperature	-20 °C
Maximum ambient temperature	35 °C
Lumen	1550 lm
Colour temperature	2200-6700 Kelvin
Beam angle	240 °
Color	white
CRI	80
Binning	6 SDCM
Service life	25000 h
Switching cycles	50000

<b>Length</b>	15 cm
<b>Diameter</b>	11 cm
<b>Net weight</b>	0.381 kg
<b>Gross weight</b>	0.493 kg
