

KARPO GOOSE

black wall-mounted light, 5.8W 3000K 40°

The KARPO light series is available in white and black. It has a spot in the shape of a cylinder that can be individually aligned via a flex arm. The pivot and rotation range of the flexible arm result in countless possibilities for pinpoint accent lighting or as a reading light, not only in living rooms and bedrooms but also in hotel rooms, restaurants and cafés. The integrated premium LEDs ensure high energy efficiency. Furthermore, the light has a high colour reproduction index of 90 and is dimmable via a switch on the light head. The light allows direct connection to a 230V mains voltage.
