

IN-LINE 44 48V TRACK

Darklight Reflector, DALI, spot, white / white, 14W, 1180lm, 2700K, CRI90, 35°

Plain linear luminaires for a particularly elegant look: the IN-LINE spotlight is concealed within a 48V TRACK system, allowing only the best feature to surface: high-quality light with a 35° beam angle in various lumen, adjustable lighting colour via a CCT switch (2700K/3000K/4000K) and natural colour reproduction (CRI>90). As a result, the DARKLIGHT REFLECTOR creates an atmosphere that particularly showcases restaurants, bars and hotels in a new light. The DALI-compatible IN-LINE linear luminaires are also quick and easy to install via a track adapter.
