

OVAL 18 WL

wall-mounted light 2700/3000K, 10W, black

Flat design, oval shape: the OVAL wall-mounted light available in black or white creates a real indoor feature. The light is distributed up and down the wall, illuminating it with a diffused glow that creates a sense of real comfort. The colour temperature can be adjusted between a warm white 2700 and 3000 Kelvin via a CCT switch prior to installation for added effect. In typical SLV fashion, it can be quickly and easily assembled and connected to a 230V mains voltage.
