

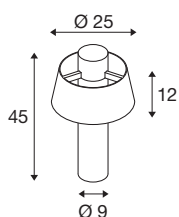

PHOTONI 45

free-standing lamp, E27, 13W, rust

PHOTONI emits an elegant, puristic and subtle light that looks at home in any outdoor area: its high-quality surface treatment means that this outdoor light can even be used in coastal regions (sea-air resistant). The circuit boards are also equipped with an IP65 protection class-rated plug. This makes PHOTONI as beautiful as it is robust. The cylindrical, conical light is available in black or an unusual rust effect. Depending on the design, the suspended shade diffuses light downwards, upwards or parallel. This provides the desired cosy, relaxing lighting effect for gardens and outdoor areas.
