

LED Tube Soft Spiral

LED bulb, E27, PHASE, 6W, 2200K

Modern and elongated shapes combined with classic light bulb charm: the LED Tube Soft Spiral is the ideal choice for elongated shade shapes or open luminaires. The flexible LED filaments look almost like real filaments and produce a warm, glare-free light that is perfect for decorative lighting purposes. Available in many traditional shapes, the Soft Tube 190 in clear glass is fully dimmable and the spiral filament makes it a real eye-catcher even before it is switched on.
