

LED Illusion Globe 125 slanting top

LED bulb, smokey, E27, PHASE, 5W, 2200K

Beautiful light doesn't have to be an illusion: The LED Globe 125 in smoky grey glass offers floating light as an eye-catcher for any room. An inclined concentric mini-filament moves the light into an orbit and separates the dark mirrored side from the pure light. With the ingenious, patented soft filament technology, the LED lamps give the impression of floating and ensure full dimmability and energy-saving use. Whether in the living room at home or in a spacious hotel foyer, this LED globe is ideal for open luminaires without shades or lampholders. Embrace the illusion!
