

LED Illusion Globe 125 Crescent slanting

LED bulb, smokey, E27, PHASE, 6W, 1900K

Beautiful light doesn't have to be an illusion: The LED Globe 125 Crescent in smoky grey glass offers floating light as an eye-catcher for any room. A vertically concentric mini-filament transforms the light into an arc shape, revealing the form and the unbridgeable barrier of the glass. The smoky mirrored glass transposes the actually straight filament into a symphony of curves in which the viewer's perspective can determine the beauty itself. Whether in the living room at home or in a spacious hotel foyer, this LED globe is ideal for open luminaires without shades or lampholders. Embrace the illusion!
