

TUBULAR P 1500 800 850 | WH DALI2 OPL PMMA

TUBULAR P, 1500 800 850 WH DALI2 OPL PMMA

The TUBULAR P series is a robust LED lighting solution for demanding industrial and wet room applications. With protection ratings up to IP69K and HACCP-compliant design, it is suitable for hygienically sensitive areas and for use in high-pressure cleaning and at elevated temperatures. The version with an opal or clear cover enables defined light distribution depending on the application. The integrated DALI-2 interface allows connection to standardised lighting control systems.
