

NEODISC

wall and ceiling light, T29-R, brushed aluminium/
chrome, energy saving lamp, max. 32W

The wall and ceiling light NEODISC is made from aluminium and glass and designed to host an energy-saving T8 ring tube. A round, chrome-plated decorative cover is located in the centre of the front pane, setting a strong contrast to the overall edgy design. Thanks to the already incorporated low-loss ballast, NEODISC is ready for direct connection to 230V mains supply.
