

AIXLIGHT R

pendant, double-headed, HIT, rectangular, silver-grey, max. 140W, without reflector

With our AIXLIGHT R, which is in keeping with the basic design of the AIXLIGHT R series, we offer a high-voltage pendant, which takes two HQI-T type metal halide lamps. It is available in black, white, or silver-grey housing colours. The lamp holders can be tilted multi-directionally allowing individual alignment of the light cone. Thanks to the built-in electronic ballasts, AIXLIGHT R is ready to be directly connected to the 230V mains supply.
