Additional safety advices =

Use as directed

Operate only on an even, stable and tilt-fixed surface.

Do not strain mechanically or expose to strong dirt contamination.

IP65: Protection against dust (dust-tight) - Protection against jetted water from all directions.

Admissible ambient temperature(ta): -20°C ...+40°C.

Lamp replacement

The light source of this luminaire may only be replaced by the manufacturer, an authorized service technician or a comparable qualified person.

Care / Storage

Clean external surfaces regularly with a slightly moistened (water) cloth.

Do not clean with pressure washer.

The following influences may have unwanted effects on the product: acidic surrounding, high salt content in the air, cleaning agents, fertilizer, thawing salt, chemicals.

Store dry and clean.

Placement

Consider IP type. It must be suitable for the place of operation.

Place in a way that product poses no danger(e.g. stumbling).

Ground spike must be fixed in a way that luminaire may not tilt.

Ground spike may not be used in permanently wet soil.

Putting into service

Fully charge the luminaire before first use (USB-C, 5V, 1A).

Charging is indicated by a flashing green light on the lower part of the luminaire. When the battery is fully charged the light turns to red.

Push the button to switch light on. The next push increases the brightness (20% - 50% - 100% - Aus).

Notice on battery

Battery type: Li-Ion 3.7V, 4400mAh

Check for secure standing and proper function!
