

T-TUBE

wall-mounted light, GU10, double, sensor, IP44, max. 10 W, black

The T-TUBE series of lights extends the successful TUBE family with a particularly slim, modern design variant for outdoor use. Available as a wall light or bollard light, it offers maximum design freedom with one or two GU10 lamps - ideal for pathways, entrances or terraces. Thanks to a special surface coating, T-TUBE is resistant to sea air and can therefore be used near the coast. The versions without a sensor have protection class IP65, while the sensor versions are labelled IP44. Their integrated motion sensors enable maximum efficiency and on-demand lighting control. A particular highlight is the integrated primary/replica functionality of the bollard lamps. This means that one light can act as the controlling element, while other lights are automatically switched on via through-wiring ideal for a continuous line of light along driveways or footpaths.

TECHNICAL DATA

Item no.	1008011
Socket	GU10
Number of sockets	1
Socket 2	GU10
Number of sockets 2	1
Horizontal rotation range	90 °
IP Code	IP44
Impact resistance class	IK 06
Impact resistance	1 Joule
Assembly	Surface
Assembly details	Wall
Primary nominal voltage	220-240V ~50/60 Hz
Safety class	
Wattage	10 W
Minimum ambient temperature	-20 °C
Minimum ambient temperature Maximum ambient temperature	-20 °C 40 °C
Maximum ambient temperature	40 °C
Maximum ambient temperature Temperature at glass (light emission)	40 °C 60 °C
Maximum ambient temperature Temperature at glass (light emission) Color	40 °C 60 °C black
Maximum ambient temperature Temperature at glass (light emission) Color Width	40 °C 60 °C black 10.1 cm
Maximum ambient temperature Temperature at glass (light emission) Color Width Height	40 °C 60 °C black 10.1 cm 43.3 cm

Gross weight	1.48 kg
BIG WHITE Page	908

Recommended lamp

1005077	LED lightbulb QPAR51 , GU10, 2700 K, black
